

**DATE:** November 16<sup>th</sup>, 2022

**TO:** WASCOE

**FROM:** Gene Schriefer, Wisconsin State Executive Director

**SUBJECT:** Shared Management Plan Adjustments

In an effort to amend some imbalances in Wisconsin Farm Program delivery, the Wisconsin FSA State Committee is considering implementing adjustments to the approved Wisconsin shared management plan. This proposed realignment will result in more equitable shared management operations and fewer stand-alone counties. Considerations have been given to staffing turn over, employee development, program oversight, changes in 27 PM policy for Lead and Chief PT establishment, and supervisor availability.

We look forward to working with you, the committees, and our dedicated FSA employees to achieve a successful transition.
